

Table S1. Estimated proportion from the multinomial model of each (mis)alignment in natural conditions (i.e., with neighbors) and at the plot scale.

(Mis)alignment	Estimated proportion	95% CI
i. aligned present	0.12	0.09, 0.15
ii. sink	0.45	0.4, 0.49
iii. dispersal limitation	0.07	0.05, 0.09
iv. aligned absent	0.37	0.32, 0.41
